

C program to implement parameter passing technique

Step 1: Start

Step 2: Declare `Int add(int i, int j)`

Step 3: Initialise `Int sum, a=10, b=20;`

3.1 `sum = add(a, b);`

3.2 `print sum;`

Step 4: Declare called function (`int add(int i, int j)`)

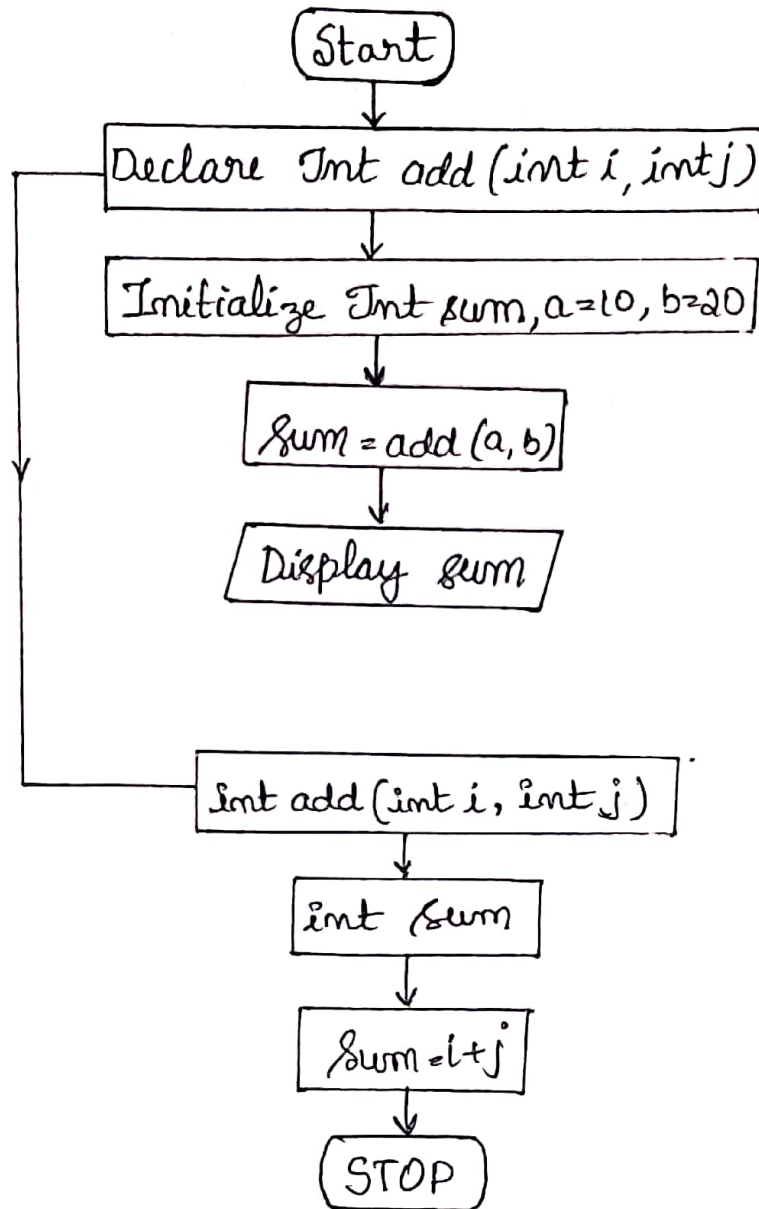

4.1 `int sum`

`sum = i + j;`

`return sum;`

Step 5: Stop.

Flowchart:
